The Chinese Zodiac consists of a 12 year cycle, each year of which is named after a different animal that imparts distinct characteristics to its year. The year of a person's birth is the primary factor in determining that person's personality traits, physical and mental attributes and degree of success and happiness through out his lifetime.

# Chinese Astrology

The origin of the 12 animal signs of Chinese astrology is unclear. Chinese legend accredits Buddha (c.563-c.483 BC) with the creation of the 12-animal cycle. Apparently, he invited all the animals to visit him but, for some reason, only 12 animals showed up. To thank them, Buddha gave each animal a year which would be dedicated to that animal alone throughout history. The years were allocated in the order in which the animals had arrived.
